dropONE as it is installed since 2000 in 'cittadellarte - Fondazione Pistoletto, Biella'

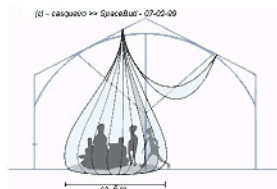

mounting the model 1:1, switzerland 1999

ONEdrop - Kunsthalle Vienna
'Get Together - the art of teamwork'

resumen / brief description >

in 1999 we developed *oneDROP - dropONE*. we wanted to project a mobile space as a permanent 'web tent' for the *artists in residents* in *cittadellarte* which until then didn't have no intimate space where they could communicate or work in the net. the form and dynamic of *dropONE* (english: first drop, italian: big drop) is inspired by the physical phenomenon of the behavior of a drop: a space with a certian tension which indicates a progress (a swash..) towards a new state. *dropONE* is made of balloon silk, bars of fiberglass and a ring (above) and a disc (bellow) of plywood where the bars are positioned. its dimension are ~ 5,5, x 5 m and its overall weight less then 10 kilos. inside there is a knee high round table, a PC connected to the net and six fat pillows which allow up to six persons to meet and visit the net. with *oneDROP* we did a variation in collaboration with Michelangelo Pistoletto for a groupshow in the *Kunsthalle Vienna*, where we installed it as a studio for Pistolettos *Segno Arte*.
