vista / glance

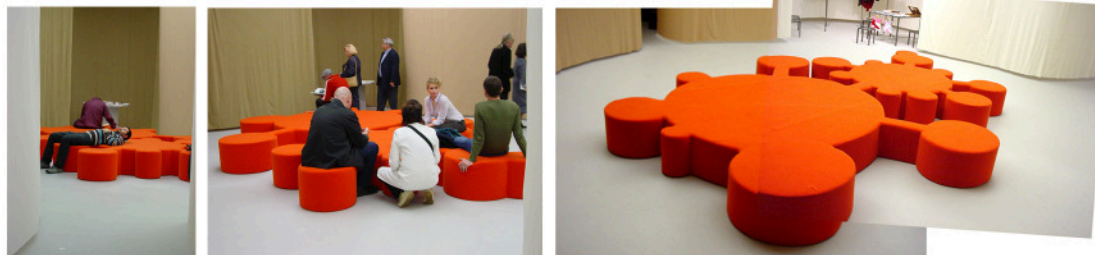

six of the eight posters we did to announce the show

plan and installation fotos of 'Uffizi porte' - a sculptural structure as 'offices of society' and cittadellarte

the plan view of the exhibition

cittadellartes logo, which we just developed before the show, realized as a huge sofa

resumen / brief description >

Michelangelo Pistoletto + cittadellarte +... was the name we gave to a big retrospective of Michelangelo Pistolettos works, especially his most complex creation - *cittadellarte*. in close collaboration (Pistoletto proposed c a l c to curate the show) with M.P. we developed all elements, except the catalogue: the concept and realisation of the announcing posters, the arrangement and selection of works in space, the development of a big accessible sculpture, a logo-sofa and the whole exhibition architecture.
