loveletterlogo for pupup-pam, Bari, Italy

logo for a group of puppet players in Oviedo, Asturias

resumen / brief description >

this file shows you a little selection of graphic design jobs we did while living the first 'spaghettiyyears' in Navia and Las Aceñas within c a l c diseño CB, the firm we founded to solve our permanent financial problems. with this jobs we financed our experimental projects. the alternative would have been to keep on knocking on concrete doors of rosty art institutions.. and we just had enough from that. since then (we never did regret it) we learned to understand c a l c diseño not only as our economic tentacle, but also as a way to try to export some ideas into other fields of daily life.
